

Wear a mask. Stay in school.

NOTICE

Missouri NEA believes the guidance outlined in this flyer puts students and school employees at greater risk of COVID-19 exposure and infection. To ensure the health and safety of the children, teachers and other school staff, and their families, MNEA strongly recommends schools continue to follow the **CDC guidelines**, whereas, those exposed to a COVID+ individual should **quarantine for 14 days after the last exposure**.

and those exposed are wearing masks

ISOLATE **QUARANTINE**

CLOSE CONTACT: Within 2 days before illness onset (or, for asymptomatic patients, 2 days prior to test specimen collection).

SELF-MONITOR: Perform a self-check or be monitored daily for symptoms of COVID-19 over a 14-day period. Contact your health care provider with questions about symptoms.

QUARANTINE: The practice of separating individuals who have had close contact with someone diagnosed with COVID-19 to determine whether they develop symptoms or test positive for the disease.

ISOLATION: The practice of separating people diagnosed with COVID-19 from others who are not sick to prevent further exposures and/or spread of the disease.
